ELECTRONIC MUSCLE RECOVERY MOOYEE

SICK OF BEING SORE?

Muscle recovery can be a time consuming and uncomfortable process. You wake up 2-3 days after a solid workout, and suddenly you are walking like an old man at a senior facility.

This kind of pain is pretty common for people who love to get out there and test their strength, but it doesn't have to be. Now you have a secret weapon in the fight against muscle soreness: Mooyee.

Mooyee sends small amounts of electrical stimulation through your body, just enough to help your muscles relax. Its small portable design allows you to take it with you anywhere at any time. The faster you can recover, the better you can get.
